

# WATER/SEWER CONNECTION PERMIT

## **BEFORE PERMIT APPROVAL**

1. Complete application and submit to Front Desk at City Hall along with applicable fee (fee schedule is attached to Water/Sewer Connection Permit Application).
2. Attach a vicinity map of lot showing the approximate location of new water/sewer service.
3. All materials used must be approved by Department of Public Works - Water/Sewer Division.
4. Your permit application will be reviewed by the Department of Public Works and the City Manager.
5. Upon approval, a copy of your Water/Sewer Connection Permit Application will be mailed to you.
6. After you receive your approved permit application, set up a water/sewer account at the Front Desk of City Hall (deposit required).
7. After your account is set up, the Department of Public Works - Water/Sewer Division will make the necessary connections.
8. As soon as your water/sewer connection is made, you will be responsible for the monthly bill.
9. Contact the Department of Public Works - Water/Sewer Division at City Hall if you have questions.

NOTE: Incomplete applications will be returned.

## **DURING/ AFTER CONSTRUCTION**

1. Labor fees will be charged for water main tap (connection).
2. All water/sewer connections must be inspected by Water/Sewer Division before being backfilled.
3. Water & sewer line pipe bedding and trench backfill must comply with City standards.
4. Swing tie measurements must be provided in writing to Water/Sewer Division for all new curb stop valves.

I agree to the above conditions \_\_\_\_\_
