HARBOR COMMISSION REGULAR MEETING
July 10, 2013 @ 7:00 PM
CITY HALL CONFERENCE ROOM

AGENDA

1. CALL TO ORDER

2. ROLL CALL

Greg LoForte, James Burton, Max Wiese, Mike Adams and
Ken Jones

3. APPROVAL OF REGULAR AGENDA

4. APPROVAL OF MINTUES

A. Included on 14 Aug 2013 Agenda.....

5. RECORD ABSENCES

6. COMMUNICATIONS BY VISITORS

A. Audience comments regarding agenda items (3 minutes per speaker)

7. HARBORMASTERS REPORT

8. NEW BUSINESS

A. None

9. AUDIENCE PARTICIPATION

10. COMMISSION COMMENTS

11. OLD BUSINESS

A. Approval of Water front Land Disposal Maps.....Pages 2-5

B. Memo from Planning & Zoning, containing background info on maps.....Page 6

12. MISCELLANEOUS BUSINESS

16. ADJOURNMENT

If you have a disability that makes it difficult to attend city-sponsored functions,
you may contact 424-6200 for assistance.
Full Harbor Commission agendas and packets are available online at www.cityofcordova.net

Memo

To: City of Cordova Harbor Commission
From: Sam Greenwood, City Planner
Date: 3/4/2013
Re: Recommendation of 2013 Land Disposal Maps to P&Z

PART I. BACKGROUND:

The land disposal maps are required be updated annually. At the 1/8/2013 P&Z meeting the maps were reviewed by the P&Z commissioners. At this meeting the P&Z commissioners are asked to approve a resolution recommending to city council the land disposal maps for 2013. Below are the definitions of the terms used for the land disposal maps.

Final Map Designations

1. **Available-** means available to purchase, lease, or lease with an option to purchase.
2. **Not available-** once the maps are approved by planning and zoning and city council the identified property is NOT available for sale. A response will be sent to the interested party that this parcel is not available for purchase. These parcels included protected watersheds, substandard lots, snow dumps and other lots used by the city.
3. **Leased -**These lots are currently leased to a business or government entity by the city and are not currently available. We have leases that are short term renewing every two years and others are long term leases with substantial improvements on the property.
4. **Tidelands** – All requests to purchase tideland will be reviewed by Planning and Zoning commission as they are received. Planning and Zoning will make a recommendation on disposing of the tidelands to city council.

Special Circumstances

It is understood that a special circumstances may exist where a letter of interest is receive on a property identified as currently not available but that the planner and city manager believe that letter of interest should be considered by Planning and Zoning. The city planner and the city manager may put the letter of interest on the next P&Z meeting agenda for review and recommendation to city council.

As the P&Z commissioners reviewed the maps questions were brought up about areas that the Harbor Commission is involved in. It was at this time that the P&Z commissioners asked that the Harbor Commissioners review the property that is directly under their watch. Below are the minutes from the meeting for back ground information.

Shipyard Comments

Reggiani wanted to discuss the Ocean Dock Area. He said it came up at their City Council meeting and they were talking about the CIP list, or basically the project request list that the City takes down to the legislature and lobbies for State money to come in. He said that basically the CIP list is a ranking by priority at what our top priorities are. They had a long discussion about a shipyard building and some of the members on the City Council thought that (a shipyard building) really wasn't a City function to build a building and create more City infrastructure and have to staff the building for boat work and stuff like that. Some thought that it should be available for a private entity to come build a building and do whatever. **Reggiani** explained that it's been in some people's thoughts that developing a shipyard area would encourage businesses to come in (fiber glass companies, welders, machinists) and set up shops down there so that when the boats get hauled out they can go to one of the shops. He said, he thought the Planning and Zoning Commission would be ahead of ourselves to change any of these "Not Available" designations to "Available". He'd really like to request that the Harbor Commission take a look at that and if they are really thinking that a City-owned shipyard building isn't the direction they'd want to go to (they'd rather see that privatized) that's won't happen if it's marked "Not Available". **Reggiani** suggests the Harbor Commission look at the maps

and make a recommendation as to what they believe is "Available". **Bailer** agreed that the Harbor Commission should make the recommendation since he has been getting conflicting opinions as to which group wants the area and which doesn't. **Pegau** said he thinks that the expansion and a big building were incorporated into a plan, but he may be wrong. He said that they have a really good Harbormaster who's not afraid to handle anything or answer any questions and that he really enjoys working with him. **Reggiani** said that Council is considering two things: to expand the fill and another was to have a shipyard building. As soon as boats were hauled out they can roll into a building to get fixed. The two ideas are not combined but will be looked at separately. They are discussing which should be the priority. Greenwood stated that he was hoping fill was on the radar as we are running out of flat useable land.

North Fill Area

LoForte said it would be nice if there was more delineation between short term and junk yard storage. **Sam** said they're working on it. **Baenen** said he definitely wanted to see business promoted in Cordova and he would rather see businesses and companies rather than boat storage any day; more businesses means more people and they're buying houses. He'd like to see land available down there. **LoForte** explained some things that have been kicked around for the North Fill Development Park Area. They are reviewing the best use of the area for a new ramp, electrical hookups and they want to eliminate the congestion by Baja Taco. LaForte said that they are putting the new ramp and electrical in this summer to get rid of the congestion by Baja Taco. Sam said that we may want to get the land disposal status on the North Fill changed and that the Harbor is coming up with a plan for Lot 3A by Bayside Storage to either utilize it or dispose of it, by possibly making it a standard lot as it is sub-standard currently.

Tidewater Development Park

Pegau recommended the designation of Shell Beach as "Not Available". Sam said she was not sure how to display that as it isn't its own lot but she will work on ATS220 for the next meeting hopefully. Sam suggested that Shell Beach be designated as "Not Available" but it may be a better way to say it would be reviewed every time and the answer would be yes or no instead of changing the designation, since it's not a platted piece of property within ATS220.

I am attaching the maps from the North Fill area, the Tidewater Development Park, Southfill Development Park, and the Ocean dock/ship yard area for the Harbor commissions input. The Harbor commission has been busy with development of the plan for the North Fill and has provided input back on the lots requested for purchase on the Tidewater Development Park. The P&Z commission would like to have all the information and comments on the areas in one memo from the Harbor Commission. At this time if the Harbor Commission could provide information on the things listed below and send back a memo to planner and the P&Z commission it would be greatly appreciated.

- 1. Agree with the maps as provided or edit as they see fit.**
- 2. List any thoughts or comments about the areas that are represented in the maps**
- 3. Provide a write up of their recommendations back to the P&Z commission**

P&Z commissioners will review the Harbor commission's recommendations and incorporates them into the maps that will then be forwarded to the City Council. Your input and edits are appreciated and will help with communication between the two commissions on land use planning.
