RE: July 2020 Financial Report

Attached are the following 3 reports.

Fund Summary through 7/31/20 Covid/CARES expenses/analysis through 7/31/20 Investment balances as of 8/25/20

<u>Fund Summary</u>- The 1st page is a summary of income and expenses YTD for our General Fund while the 2nd page is a summary of the income and expenses for all our funds.

The highlights so far this year are listed on the Covid/CARES report, but are worthy of mention here. The largest hole in the actual vs. budgeted revenue is the reimbursement of school debt (\$387k) eliminated by Governor Dunleavy. We also had revenues of \$108k collected last year that were included in this year's budget. Finally, we reversed about \$25k of penalties that were erroneously recorded last year, thus lowering revenues this year.

On the expense side, our liability insurance has increased by \$145k, half of which will be recognized this fiscal year. This includes a \$18k increase in the school insurance that we pay. Our major dock repair came in \$75k higher than the \$200k budgeted due to more deterioration than we expected. We also have incurred \$14k of legal fees for negotiation of the sale of CCMC that was not budgeted.

Also, on the expense side, CCMC has obtained emergency funding so that we have only spent \$250k of the \$600k budgeted, yielding a savings of \$350k.

<u>Covid/CARES Analysis</u>— We have spent \$1.3 million through 7/31/20 on Covid expenses that are covered by the CARES Act funding. We project spending an additional \$2.5 million through the end of this year. The major projects are detailed.

Since first responders and many IMT members are paid from the general fund, the reimbursement of their salaries (\$750k) from CARES funding will infuse cash into the

general fund to support regular operations and address the revenue shortfalls or expense increases mentioned above.

. <u>Investments</u> –We have reversed all the losses (over \$1 million) that occurred earlier in the year.

It appears that the city has not had a detailed look at the investment policy since 2010. There are many variables and risks with investing that lead to complex questions regarding the city's fiduciary function. I recommend that we form an investment committee to review all the city's options for its investments. The committee can explore all the various options and recommend to the council a course of action that can be effected by year end.
