1a. Staff Report – South Harbor Proposal Design-Build Selection
City Manager Helen Howarth led by saying this project is many years in the making; the RFP went out and we had hoped for multiple proposals but in the end received two. Both were far over the amount we had put in the RFP to complete the scope of work – the best was $45 million, and we have $35.7 million. We scored the proposals and issued a notice of intent to award to Turnagain Marine Construction. The team proceeded to work with Turnagain on a reduced scope of work, a lesser price, but also retain our grant funding. Which resulted in the proposal in front of you which are two possible ways to address the harbor rebuild both of which will require additional resources from the City. Collin Bronson, harbor rebuild team member, stated the rebuild concept meets all the requirements of the grant and bond, but we’re over budget. He’s trying to find a solution that buys down as much risk to those funding sources as possible and still meets all the needs of the community and harbor commission. Bronson gave a power point slide presentation comparing the two proposal options, how Turnagain Construction Corporation was selected and the team’s options and recommendations. To remain on the current timeline the contract will need to be signed within the next week for construction to begin September 2023 and to conclude April 2024, all functionality by June 2024. Carpenter asked if there was more work to add or if it’s just $3.9 million needed for option B. Bronson stated they will be going after more grant money, but the challenge is, they need the money now to keep to the timeline. Howarth continued with some additional options and funding possibilities. Meyer asked what the impact will be with the loss of dredging in the harbor. Greenwood explained that the dredging was needed for the “O” float which was part of the full construction, not in option A or B. Bailer asked if the team feels fully confident in the design and the competency of the contractor. Greenwood answered they have a concept and are totally confident in Turnagain. After they have a contract they will be able to get into the details. Bailer questioned the insurance policy; Greenwood stated our contract is through Garth who is a construction lawyer. We have liquidated damages and daily liquidated damages; also, we required a bid bond and a construction bond. Bailer supports what was put forward. Guard asked if the bids had the materials levels we hoped to find and is there a 50-year warranty from Turnagain. Greenwood explained that part of the RFP was a 50-year lifespan including a maintenance schedule. Guard questioned what type of material would be used for the floats. Schinella described the proposed wood floats that having poly tubs underneath coated in rubber. He stated they stand up to ice and any kind of animal damage with the decking spaced apart to allow for drainage. They also have torsion bar adjustors which can be used to keep the docks straight. Jones added the new docks in Valdez that Turnagain installed are twice as tall as our current docks and elevated well above the water service. He’s in favor of this project and wants to move forward as prices keeping getting more expensive. He prefers loaning the harbor the $3.9 million out of the permanent fund paying it back with increased stall rents. The B+ option would allow for the bulkhead, extra parking spaces and O float to be added in the future. Schinella addressed...
Jones’ grid concerns and stated we will not lose the grid. Jones would like any changes to the design be vetted through the harbor commission.

F. New Business
2. Resolution 11-22-31 A resolution of the Council of the City of Cordova, Alaska committing $3,620,000 for the South Harbor Rebuild Project
   M/Jones S/Carpenter to approve Resolution 11-22-31 a resolution of the Council of the City of Cordova, Alaska committing $3,620,000 for the South Harbor Rebuild Project
   M/Jones S/Carpenter to amend commitment to $3,896,575 for the South Harbor Rebuild Project
   Hearing no objection, the amendment was approved.
   Jones stated its a worthwhile project for use of community resources and should evaluate how it’s paid back. Howarth interjected this is a bridge to buy us time to identify other funding sources and repayment strategies. This will allow access to city resources and operate as a line of credit to keep the project moving forward. Carpenter said she supports the resolution and asked if a second vote is necessary if the funds were to come out of the permanent fund. Howarth said yes and the commitment is a compilation of available resources which would not be needed for day to day expenses over the next 12 months. Bailor is in support. Guard is in support. Meyer is in support and likes that this buys time to look for other funding sources. Mayor Allison stated he hopes the public will get involved when it comes time to appropriate the funds as special meetings only give 24-hour notice. Since 4 million is already committed for in the general fund he supports a loan or setting up a permanent fund for investing; pushing for grants and creative ways to get it paid for.
   Vote on the main motion as amended: 5 yeas, 0 nays, 2 absent. Schaefer-absent; Sherman-absent; Jones-yes; Bailor-yes; Guard-yes; Meyer-yes and Carpenter-yes. Motion was approved.
3. Award of Contract to Turnagain Marine Construction for South Harbor Rebuild
   M/Carpenter S/Jones to direct the City Manager to negotiate a contract with Turnagain Marine Construction to provide design and construction of the South Harbor Rebuild for a sum not to exceed $39,596,575.
   Carpenter this is the vote that enables us to award the contract so we can get the work going, she’s in favor of the motion. Jones supports this motion for option B+ that staff presented. Meyer said its part of the process. Bailor is good with the motion. Guard is in support. Mayor Allison stated this is committing us, if we don’t get grants for the $3.9 million we will need to find a place to get that money.
   Vote on the motion: 5 yeas, 0 nays, 2 absent. Sherman-absent; Jones-yes; Guard-yes; Carpenter-yes; Bailor-yes; Meyer-yes and Schaefer-absent. Motion was approved.

G. Audience participation – none

H. Council comments
   Meyer said she’s excited to see this moving forward, it’s been a long time coming. She thanked staff for all the hard work.
   Guard thanked staff for everything they’ve done.
   Jones thanked everyone for coming out in the middle of the day. He’s excited to see this moving forward and wished we would have done it 10 years ago.
   Bailor thanks to the dedication of the team working on this, really appreciate it. He has faith the City Manager will find other funds. This is going to be great for Cordova.

Dear Municipal Official:

The Department of Commerce, Community, and Economic Development is pleased to announce availability of the FY 2023 Shared Fisheries Business Tax Program. The purpose of the program is to allocate a share of state fish tax collected outside municipal boundaries with municipalities affected by fishing industry activities. Municipalities around the state will share approximately $2.4 million based on 2021 fisheries activity as reported by fish processors on their fish tax returns. Details of how the program works are included in the application under Program Description.

Historically, your municipality along with the other communities in your fisheries management area FMA 15: Prince William Sound has filed using the Alternative Method found on the last four pages of this application. A breakdown is included that details the communities in your FMA, in addition to the anticipated payment based on the agreed upon allocation method for your FMA. If this agreement is still in place with your FMA, you will only need to have your Council/Assembly pass the enclosed alternative method sample resolution in order to participate in the program.

If your FMA intends to change the alternative method of allocation, the new proposal must be submitted to our office no later than January 15, 2023. If an agreement cannot be made with all communities in your FMA, you will need to file using the standard method and claim your significant effects. Instructions on both of these methods are detailed in the application packet.

DEADLINE FOR SUBMISSION OF COMPLETED APPLICATION IS FEBRUARY 15, 2023

Applications can be scanned and emailed to caa@alaska.gov with the subject line “Cordova, FY23, SFBT.” If you have any questions about the program or require assistance in completing the application, please contact me at kimberly.phillips@alaska.gov or call (907) 451-2718.

Mayor David Allison <mayor@cityofcordova.net>
City of Cordova
cc: Susan Bourgeois <citycleark@cityofcordova.net>

Greetings,

I am submitting my name for consideration for appointment to the City of Cordova’s seat on the Prince William Sound Regional Citizens’Advisory Council’s (PWSRCAC) Board of Directors recently vacated by Robert Beedle.

I have lived in Cordova for coming up on 30 years. Previously I lived in Valdez for 16 years.

I am very familiar with PWSRCAC. I was present at it’s inception in Valdez, have attended some of their Board meetings as well as some of their Committee meetings, receive their newsletters, annual reports, committee meeting packets, Board of Directors meeting packets and have worked as a contractor for them. My photographs, knowledge of the natural history of Prince William Sound and Exxon Valdez Oil Spill (EVOS) has been freely shared with them.

Even before the 1989 Exxon Valdez Oil Spill I was involved with research projects and environmental issues in PWS including baseline tidal surveys with National Marine Fisheries Service, glacier research with US Geological Survey, biologist for the salmon hatchery in Valdez and commenting on and following many projects in PWS including the agreements which created the EVOS Trustee Council.

Around 1985 I shifted to working within the tourism industry. In 1989 my family and I were care-taking Stan Stephens’ Growler Island Camp on Glacier Island just 8 miles west of Bligh Reef when the Exxon Valdez ran aground on March 24, 1989. I worked the first week of response then went back to my commitment to Stan Stephens’ Camp. In following years I was able to relief skipper aboard small response boats, worked for the Valdez Local Response Program, was Director of PWS Conservation Alliance, participated in the Trans Alaska Gas Line Environmental Review Committee, represented local interests on the last major shoreline survey by Exxon and guided Greenpeace’s Rainbow Warrior and David Rockefeller Jr.’s sailboat flotilla to lingering EVOS oil sites in PWS.

We moved to Cordova in 1993 operating the 58’ charter vessel Auklet for the previous owner. In 1995 we started Auklet Charter Services based in Cordova. We specialized in research/work trip support, film/media as well as natural history cruises. The work allowed me to be involved with Federal, State, University and Non-Government Organization research projects in and around PWS. Most of these projects where related to research and monitoring related to the Exxon Valdez Oil Spill (EVOS). This has allowed me to spend time in every corner of PWS as well as gain and share valuable knowledge of the area. As my own project I have documented EVOS lingering oil nearly every year.

Potential conflict of interest with my charter work has kept me from considering this board position in the past. I am presently transitioning into retirement so no longer see any issues.

Our website is still up with a full list of organizations we have chartered with as well as maps and photos showing my extensive experience in PWS. https://www.auklet.com/research.htm

I strongly support PWSRCAC’s mission and would be honored to represent Cordova on their Board of Directors.

Thank you for this opportunity and please call, text or email if you have any questions or need any references.

Sincerely,

David Janka

MOBILE MARKET VENDING

January 18, 2023 Council Meeting

OVERVIEW

I have recently upgraded a hand-built unit on trailer & was granted permission via DEC to sell & make foods that fall under Alaska Cottage Food Laws (non-potentially hazardous/not needing to be temperature controlled), from said unit. I have signed a lease with CTC to put the unit in & have paid for insurance for the year. In 2018, I launched my small herbal business, Terra Veda, & had moved into the retail location behind the Alaskan. I handcraft an array of art, loose-leaf teas, herbal products, & foods that are health conscious & eco-friendly. This unit offers me a platform to relaunch my business after the pandemic, with a more solid chance for expansion & growth. Beyond myself, I wish to run the unit with a forward-thinking community approach by offering it to licensed/permitted locals & fundraisers to do the same, at no charge. This essentially creates a Mobile Mercantile Market Unit with Co-Op fundamentals & community values; we affectionately refer to the unit as “The Coop”, & would like to officially coin it as such. The unit has room for further upgrading, which would expand how much food can be offered to Cordova. This is a future plan & I would like City Council’s blessing to move forward with such plans, as we reach the milestones to do so. For now, I wish to have the dry, warm unit host Terra Veda and other Cottage Food creators, Artists, and Fundraisers to sell their goods from, at an affordable & more frequent location. Currently, these types of businesses are only seen at the 4 annual vendor events & once-a-month Saturday Markets; Approving this proposal will exponentially increase locals, like myself, availability to sell their goods from 16 times a year, while decreasing hassle, discouragement from overhead costs, & commitment of brick and mortar vending.

GOALS

1. Boost my livelihood, local economy, morale, and entrepreneurship.
2. Provide a vital platform for growth as a person & community.
3. Diversify locally offered goods, while increasing the limited community resources.
SPECIFICATIONS

The hand-built, off-grid unit is 10.7’ long (with additional 4’ trailer tongue), 6.5’ wide, & 8.7’ tall, being previously used locally for Cottage Food sales. We upgraded the unit with full insulation, walls, FRP (commercial & food-grade wall protector), along with upgrading the wiring to a contained system to run fans & lighting from 12-volt DC batteries with attached fuse-box. The unit can be run full-time without needing to be charged for a month, which will be supplemented by a trickle-charge via a solar charging system that we are installing. A #40 propane tank is mounted on the tongue of the trailer & is attached to a portable 2-burner propane inside, which can be removed from the unit for grilling use &/or currently approved foods under Alaska Cottage Food Laws inside the unit. A portable heater is being hooked to the existing propane tank to offer heat, under the guidance of local CVFD personnel who are aware of these plans. The unit is equipped with a fire extinguisher, 4 ventilation flaps, 2 sliding windows, & a locking door. A spigot is located in the lot to provide water, if needed, but we prefer to maintain our off-grid foundation when gradually upgrading-hauling water &/or self-contained hand-washing stations. After extensively reading through the state guidelines, this is entirely possible and permissible, but is not required until someone is seeking a permit to sell foods that are hazardous, which Cottage Food is not, therefore exempt. The bulk of food being sold will not be made on-site, but will follow state regulations to ensure compliance with vendors & goods being sold from “The Coop”. If currently approved foods are made on-site or at-home, a placard, label, card, or signage that reads, “THESE PRODUCTS ARE NOT SUBJECT TO STATE INSPECTION” shall be conspicuously posted on or within the unit itself, or directly on packaged foods, per DEC requirements for Cottage Foods. A vendor has the opportunity to apply for a Temporary Food Service permit for up to 120-days, in conjunction with a “Not Self-Contained” permit from the state, which allows them to prepare foods in an approved kitchen & expand their menu. I will be personally pursuing this once the initial phases are complete & will encourage vendors to do so themselves. This proposal will not be approving anyone to sell out of “the Coop”-aside from pre-scheduled fundraising events- that have a menu similar to Jen’s. Cottage Food is very limited, therefore automatically reducing risk of competition due to none of her items falling under this category. Terra Veda itself is built on plant-based products, foods, and eco-friendly systems that are not available locally, but heavily desired. Interested candidates will need to be approved prior to use by providing a menu, proof of current state & city licensing, any necessary permits, and agree to haul their own waste & fully sanitize between use.
Menu Example(s):

https://dec.alaska.gov/ehe/fss/food/retail/cottage-food/

Cottage Food (Already approved by DEC to sell from unit)

3. Candies/Confections- Fudge, Truffles, Brittles, Marshmallows, & Chocolate Covered Pretzels, Graham Crackers, or Fruit.

4. Fermented Products- Kombucha, Fermented Fruit & Vegetable Products (ex: sauerkraut & kimchi)

5. Other Cottage Food: Baked Product Mixes, Dried Soup & Dip Mixes, Dehydrated Vegetables or Fruit, Popcorn (candied/balls/seasoned), Dry Herbs, Salts, Seasonings, Dry Pasta made with Egg, Nuts (coated or uncoated), Roasted Coffee or Dried Tea, Waffle Cones, Tortillas, Flatbreads, & Fruit Leathers.

Fundraisers (Not more than 3 within 90-days for same beneficiary cause):

1. Expanded options as long as items are cooked and served immediately, prepared beforehand and kept within safe serving temperatures upon serving, or are using pre-packaged foods that just need “warmed” before serving.

2. Eligible candidates to host a fundraiser from “The Coop” must advertise to the general public, be under the umbrella of a 501c3, religious congregation, school, organization, or political campaign, to raise funds for a cause within their entity. Fundraisers for medical, education, or personal needs of an individual are permissible, as long as the monetary gains are solely used for the cause outlined in the fundraiser.

3. Examples: Hot Dogs, Hamburgers, Soups, and many other options can be cooked from portable burners outside of the unit, under a canopy, if desired. As long as the guidelines outlined by the state are followed, food fundraisers can include a lot more items than Cottage Food.

Non-Contained Items (Businesses whom obtain this permit can expand the menu):

1. Terra Veda: Plant-Based Milks & Ice-Cream, Sauces, Dips, Charcuterie, etc intended to eventually be prepared in separate DEC approved kitchen & vended from unit.
Non-Edible Goods Examples (Once Conditional Use Permit is Obtained):

1. Artwork- Handcrafted decorative pieces made from an array of materials such as wood, epoxy, metals, textiles, glass, canvas, etc that were customized by the seller.
2. Photography- Photo images on an array of materials & layouts that are taken by the seller & watermarked.
3. Crafts- Useful Items handmade from an array of materials such as wood, glass, metals, textiles, leather, epoxy, wax, etc.
4. Toiletries & Household Cleaning- Handcrafted products, not found at local retail, for the purpose of personal hygiene, beautification, grooming, & household cleanliness. Example: Bath bombs, Soaps, plant-based cleaners & detergents, body scrubs, salves, lotions, etc.
5. Plant & Garden: Plant starters, bouquets, seeds & garden supplements.

- Proper permitting will be obtained before selling any items listed above.

EXHIBIT A
LEASED PROPERTY DESCRIPTION

The leased space consists of the empty lot shown below.
Hi Charity,

Thank you for emailing and for also taking the time to discuss your plans with Nancy and I.

As discussed you plan on having vendors, who fall under the cottage food exemption, use this unit to sell their products out of. The cottage food exemption allows the sale of non-potentially hazardous foods to be sold directly to consumers without a permit if certain conditions are met. These conditions are outlined in the following link; [Cottage Food (alaska.gov)](http://alaska.gov).

If your vendors meet these conditions and are selling a food item allowed under the cottage food exemption (a list is shown in the link as well) then they are allowed to use your unit to sell out of and do not need a permit. Your unit would not be subject to the requirements in the Alaska Food Code if it is only being used for vendors that fall under the cottage food exemption.

We do recommend that food safety practices be used whenever food items are being prepared such as handwashing and glove use.

Please let me know if you have any further questions.

Thank you,

Council Packet Correspondence Primer: Communicating with Your Elected Cordova Officials

This primer provides an overview of City of Cordova policies regarding the submission of correspondence to the City Clerk’s office for distribution to City Council. These policies are general in nature and do not preempt the application of relevant laws to correspondence distribution. To the extent you have questions regarding the distribution of specific correspondence, please contact the City Clerk’s office.

What gets published in Council packets as Correspondence?

- Letters, emails, cards, or other written or electronic mail addressed to City Council, any individual member of City Council or the Mayor, regardless of whether or not the sender has requested inclusion of the correspondence in a City Council packet.
- Letters, emails, cards, or other written or electronic mail written by the Mayor, individual City Council members in their capacity as elected officials, or the Council as a body.
- Letters, emails, cards, or other written or electronic mail by agencies/entities that are pertinent to Council and the citizens of Cordova (e.g. population determination, full value determination, open comment periods for projects/leases in and around Cordova, etc.).
- Only correspondence received by the Clerk’s Office on or before noon on the Wednesday before a regular Council meeting is eligible for inclusion in the packet for that meeting. Correspondence eligible for inclusion received after that date and time will be included in the next regularly scheduled Council meeting packet. (See CMC 3.12.035).

What does not get published in Council packets as Correspondence?

- Letters, emails, cards, or other written or electronic mail that are disparaging to individuals or entities.
- Letters, emails, cards, or other written or electronic mail that have been sent anonymously.
- Letters, emails, cards, or other written or electronic mail that contain confidential information or information that would warrant a constitutional violation of privacy or could potentially violate an individual’s or an entity’s constitutional rights.

More information about items not subject to publication:

- Correspondence that is not subject to publication in a Council packet will, however, be forwarded to the Mayor and City Council members with notification that the communication will not be included in the Council packet and the reasons for the exclusion.
- The City will attempt to contact the writer of the correspondence to inform them that the City has determined not to publish what they have sent. Notifications will be sent to the return address on the communication if one has been provided. (the best way to ensure the City is able to reach the writer is if the correspondence has been emailed through the City Clerk cityclerk@cityofcordova.net)
- A person who submits a communication that is not subject to publication in a Council packet, may still attend a meeting and read the communication during audience comments (if it is about an agenda item) or during audience participation, if it is not about an agenda item. Oral comments during a Council meeting will not be monitored or limited for content unless the comments made incite or promote violence against a person or entity. The City is not responsible or liable for the comments, thoughts, and/or opinions expressed by individuals during the public comment period at a Council meeting.

Suggestions concerning correspondence:

- Correspondence intended for all Council members should be emailed to the City Clerk at cityclerk@cityofcordova.net, hand-delivered or sent via U.S. mail to the Clerk’s office. Correspondence should be clearly addressed to “Cordova City Council.” Unless clearly stated otherwise, the City Clerk will presume that all correspondence addressed to City Council is intended for inclusion in the packet.

Cordova-Orca Road Winter Storm Repairs Project
State Project Number: NSHWY00700
No Historic Properties Affected

December 22, 2022

The Honorable Clay Koplin, Mayor
The City of Cordova
PO Box 1210
Cordova, AK 99574

Dear Mayor Koplin:

Because of damages caused by an extreme winter storm event, the Alaska Department of Transportation and Public Facilities (DOT&PF), Maintenance and Operations (M&O) is proposing to repair the ocean side road embankment at multiple sections between milepost (MP) 1.0 and 2.1 of Orca Road (also known as New England Cannery Road), in Cordova, Alaska. The project location information is presented in Table 1 and shown on Figures 1-2.

Pursuant to AS 41.35.070, Preservation of Historic, Prehistoric, and Archaeological Resources Threatened by Public Construction, DOT&PF finds that no historic properties will be affected by the proposed project.

**Project Description**
The DOT&PF M&O, is proposing the following activities between MP 1.0 and 2.1 of Orca Road.
- The erosion of roadside slopes and roadways shoulders includes twelve (12) section repairs with multiple cut-outs that are approximately 5 to 20 feet wide and 3 to 15 feet deep (see Figure 2 for exact locations).
  - Proposed work would occur from the existing roadway using a loader and a backhoe to replace and rebuild the road prism to an as-built condition.

“Keep Alaska Moving through service and infrastructure.”
The 22-foot roadway would remain the same, and the shoulder of the road would be rebuilt by backfilling and replacing materials in-kind to reestablish and maintain roadway structures.

Materials for this project are anticipated to be contractor-furnished from an in-town commercial material source located at approximately 0.8-mile Whitshed Road. Staging is proposed to occur at MP 1.0 of Orca Road (see Figure 2).

**Project Area of Potential Effects (APE)**
The Project APE is presented on Figures 1 and 2 and extends from MP 1.0 and 2.1 of Orca Road (a.k.a. New England Cannery Road), north of Cordova, Alaska. Visual impacts were considered when developing the APE for this project, none were identified. Proposed repairs are returning the road to as-built conditions, thus not imparting visual impacts.

**Identification Efforts**
A search of the Alaska Heritage Resources Survey-IBS (AHRS) database on December 22, 2022 indicated that there is one (1) AHRS site located within the Project APE. That AHRS site is briefly described below.

*COR-00576 Copper River Highway*- The Copper River Highway is approximately 49.5-miles long and runs from downtown Cordova to the north side of the Million Dollar Bridge at Miles Glacier. The Copper River Highway was constructed between 1945 and 1964, using a portion of the alignment of the abandoned Copper River & Northwestern Railway Grade. The Highway was determined not eligible for the National Register of Historic Places, and the SHPO concurred with that determination on 2/19/2015.

A search of the Alaska Department of Natural Resources Division of Mining, Lands and Water Revised Statute (RS) 2477 database indicates that there are no (0) recognized public ROWs under this Statute within the Project APE.

A review of the DOT&PF Northern Region Cultural Resources Library revealed that the APE, which is limited to the ocean side embankment of the Copper River Highway, was surveyed as part of the Alaska Roads Programmatic Agreement (Mead and Hunt 2014). No cultural resources were discovered as a result of that survey. The DOT&PF Archaeologist-Cultural Resource Specialist (PQI) believes that this level of effort is sufficient for project as presented.

**Finding of Effect**
As there are no historic properties identified within the Project APE, the DOT&PF Northern Region PQI believes that a finding of no historic properties affected is appropriate for the project as presented.

**Consultation Efforts**
Due to the limited nature of the work being proposed, the DOT&PF is proceeding directly to findings on this project. In additional to the Chief of Office of History and Archaeology for the
State of Alaska, the following parties will be sent letters: Native Village of Eyak, Eyak Corporation, Tatitlek Corporation, Chugach Alaska Corporation, City of Cordova.

If you wish to comment on this finding, I can be reached at the address above, by telephone at 907-451-2227, or by e-mail at holly.mckinney@alaska.gov. Your timely response will greatly assist us in incorporating your concerns into project development. For that purpose, we respectfully request that you respond within thirty days of your receipt of this correspondence.

Sincerely,

Holly J. McKinney

A memo from Susan Bourgeois, CMC, City Clerk

DATE: January 12, 2023

TO: Mayor and City Council, public

SUBJECT: Agency and Public review period for preliminary decision regarding Aquatic Farmsite leases near Cordova

Steps in this process:
1. A business or citizen requests a lease from State of Alaska Department of Natural Resources, specifically, Division of Mining Land and Water.
2. Agencies are made aware of the full project scope and a 20-day agency review period begins.
3. The Division makes a preliminary ruling on the request and then a 30-day agency and public review period ensues.

The City Clerk receives notice first when the agency review period opens – the full project application is put into a council packet for Council review and Council can direct staff to comment.

After the Division of Mining, Land and Water makes a preliminary decision on the lease request, the Clerk receives notice again and puts the one-page public notice into a Council packet under correspondence. The one-page notice has a link to the website where the text of the preliminary decision can be read as well as the full project packet can be reviewed. This one-page public notice also gives the public direction and timelines for making comments.

This aquatic farmsite lease was before Council on June 1, 2022 when the Agency review period was open and now this is in correspondence for tonight’s meeting because the 30-day agency and public comment period is open – deadline for comments February 10, 2023.

DNR has a website explaining this process:
https://dnr.alaska.gov/mlw/aquatic/application/

TO: Cordova City Council
FROM: Helen Howarth, City Manager

RE: Native Village of Eyak/Cordova Health Care

The attached letter from Ted Wright, new CEO of Native Village of Eyak (NVE), outlines a renewed effort and commitment by NVE to take responsibility for health care delivery in Cordova through construction of a new Clinic and coordination of health care with Cordova Community Medical Center until such time all health services are consolidated.

In the letter, NVE outlines its commitments to the process and delineates its expectations of City.

City assets (land, buildings) are possible pieces that will come into play. City, CCMC and NVE will work together with community to identify viable health care solutions. City, CCMC and NVE staff have begun meeting and agree to a collaborative, cooperative and transparent process.
Dear Ms. Howarth:

Please accept this letter of Interest as an expression of the commitment of the Native Village of Eyak to work with the City to consolidate healthcare operations in Cordova. While we appreciate the many years of work the City and Tribe have put into this effort, it is time to move past the general idea phase to more robust discussions of commitments, expectations, actions, and plans.

Native Village of Eyak Commitments

1. We will take responsibility for all healthcare operations within the community of Cordova.
2. We will finance and complete Phase 1 & 2 environmental analysis to determine the suitability and feasibility of sites adjacent to the Cordova Community Medical Center (CCMC).
3. Our Council has also committed resources to complete the design of the new Ilanka Community Health Clinic (ICHC), in keeping with the NVE priority of improving healthcare for the whole community.
4. Our team will work cooperatively on a structure and process for the Native Village of Eyak to assume CCMC governance and operations alongside enhanced ICHC operations to ensure the community has access to the best healthcare possible.
5. We will lobby our congressional delegation before the end of March for an appropriation to help fund the new Ilanka Clinic. This first appropriation anticipates future support for a remodel and/or replacement of the Cordova Community Medical Center.
6. NVE will consider 105-L leasing to service the debt from construction of the new Clinic and fill any gaps in capital infrastructure funding.
7. Per (4) above the NVE Council has begun to structure a joint Board to govern the Medical Center and Clinic as we cooperatively consolidate healthcare in Cordova. This will entail many public meetings and joint City-Tribal sessions; but we are committed to this work.
Native Village of Eyak Expectations

1. The City of Cordova Council would pass a resolution in support of our request to Senator Murkowski for an appropriation toward Clinic construction.
2. The City would assist NVE in obtaining the appropriate permits as necessary throughout the project.
3. The City will collaborate with NVE during the A&E phase of the construction project to resolve all zoning, ingress/egress, utility, drainage, and environmental challenges which may arise.
4. The City will provide a formal point of contact(s) who will help coordinate and communicate information throughout the duration of the project.
5. The City representatives will commit to meet with the NVE representatives at least two times per month throughout the duration of the project.

We look forward to your joining us to organize a governing body for healthcare for the community of Cordova. The representatives of this Board will work with CCMC/ICHC, the City of Cordova and the Native Village of Eyak to resolve issues ranging from PERS liability, ground lease/ownership, potential Coast Guard needs, credentialing/privileging of staff, and ongoing financial sustainability planning.

Our goal is to move forward in a collaborative manner working in the best interest of the community with the final product being a Memorandum of Agreement which can be codified by both NVE Tribal Council and the Municipality of Cordova City Council.

Please let me know when we could meet after the New Year to discuss details.

Sincerely,

Ted A Wright

Pending Agenda (PA) Primer

What is Pending Agenda?
A list of topics that Council wants to explore in the future (these are Pending, for an Agenda).

These topics might be worthy of an agenda item at a regular/special meeting (if there is a specific action being requested).

These topics might be worthy of a work session when Council can discuss at more length and come to a consensus about direction to staff to bring an action back.

How do you get something ON Pending Agenda?
During PA, a Council member can suggest a topic to add to PA. At that time, a second Council member, the Mayor or the City Manager can act as the second who agrees to add the item to the Pending Agenda List.

How do you get something OFF Pending Agenda?
During PA, a Council member can mention a topic that is on the list of topics and name a specific date to hear the item, either as an action item on a regular/special meeting or as a discussion item for a work session. If this occurs, a second member is still required, and the member(s) should clearly articulate the action intended or the specific topic for discussion and set a specific date.

Quarterly, we will go through all the items listed on PA and purge the ones that no longer seem practical or that have been handled already.

What is NOT appropriate for Pending Agenda?
Sometimes items are considered for PA but are more appropriately tasks for the Clerk or Manager. These items might warrant Council action in the future, and if so, will be brought back when that is necessary. A consensus of the entire body is required to task the Manager or Clerk with something specific.

The PA part of the meeting sometimes becomes a more detailed discussion of an item being proposed. Council should refrain from the extraneous discussion of a topic at this time and instead clearly state the item, get agreement of a second, and it will be added to the list. Obviously, sometimes a short discussion is required in order to articulate the detail of what is being added.
