

Breakwater Park & Trail Survey

The City of Cordova Parks & Recreation Department is requesting input from the community on ways to improve the Breakwater trail and surrounding area collectively known as Breakwater Park. The City of Cordova wants to consider ways of improving the amenities in the area including the addition of a covered shelter.

This survey is the first step in a public outreach process to understand how the community currently uses this space and to gauge community interest in opportunities to add more facilities and services to the area to develop it into a formal park. We've commissioned a concept plan for the redevelopment of the area.

We would like to know what you think of the proposed design of the new facilities at Breakwater Park.
